

# NX7/7S

## Light and Robust

NX7/7S is believed to be the lightest dance floor in the market, with lower transportation costs, and it offers maximum 1200kg loading capacity per sqm.

## Flexible Installation

Installation with track is fast, thin and concise, while installation with adjustable base cures the headache when the floor is a little bumpy.

## Thermal Conduction

Thermal conduction design on NX7/7S offers better heat dissipation than ordinary designs, which leads to more stable performance and longer life span.

## Rest Assured

NX7/7S have served Coldplay, WWE, 2015 Baku European Games, different car shows, and many casinos as well, it is believed to be the most widely used dance floor in the market.

**It's all about USER EXPERIENCE**

## NX7S/7 SPECIFICATIONS

	NX7	NX7S
INTERACTIVE	NO	YES
PIXEL PITCH	7.8mm	
PANEL RESOLUTION	64×64dots	
LED QUANTITY/PANEL	4096dots	
PIXEL CONFIGURATION	3-IN-1 SMD	
BRIGHTNESS	2300nit*	6000nit*
REFRESH RATE	1920Hz	
MAX POWER CONSUMPTION/PANEL	180W	200W
AVERAGE POWER CONSUMPTION/PANEL	110W	120W
GRAY SCALE	14bit	
BRIGHTNESS	256Level	
MAX LOAD CAPACITY	1200Kg/m <sup>2</sup>	
PANEL DIMENSIONS	500×500×60mm	
PANEL AREA	0.25m <sup>2</sup>	
VIEWING ANGLE (H/V)	140°/110°	
CONTRAST	2000:1	
IP RATING	IP54	
LIFESPAN (50% BRIGHTNESS)	>50000Hours	
OPERATING TEMPERATURE	-10℃~+40℃	
OPERATING HUMIDITY	10%~90%RH	
INPUT POWER	AC110~240V 50/60Hz	
DRIVE MODE	Constant Current	
SIGNAL TYPE (ADOPTING VIDEO PROCESSOR)	AV, S-Video, VGA, CVBS, HDMI, DVI	
CERTIFICATES	TUV-RH CE, FCC, ETL	

**Notice:** 1.Product design and specifications are subject to change without notice.  
2.Brightness may vary with different configurations.
